## FIRST REPORT OF THE RECORD COMMISSIONERS.

*To his Honor the Mayor and the City Council of Boston:—*

The ordinance\* creating the office of the Record Commissioners defines their duties as follows: "To complete, as far as practicable, the record of births, deaths and marriages in the town and city of Boston, prior to A. D. 1849." The reasons which led to the passage of the ordinance will be found in Appendix A, being a portion of the report of a Joint Standing Committee of the City Council for 1875.

A reasonable construction of the duties of the commissioners seems to include therein all such investigations as will directly assist in perfecting the record of the vital statistics of Boston. How great are the deficiencies in those records will be seen by the statements made in Appendix A; and although the readiest mode of supplying the information will be to copy the existing church records, the commissioners

\* SECTION 1. In the month of July in the year 1875, or as soon thereafter as may be, and every fifth year thereafter, the Mayor shall appoint, subject to the approval and confirmation of the City Council, two suitable persons, to be termed Record Commissioners, who shall hold office for the term of five years from the first Monday in May in the year of their appointment, and until their successors shall be appointed and qualified. They shall have and exercise the powers and duties hereinafter designated, shall serve without compensation, and may be removed at any time by the mayor or by concurrent vote of two-thirds of both branches of the City Council, and all vacancies occurring from any cause shall be filled in the same manner as the original appointments are herein directed to be made.

SECT. 2. It shall be the duty of said commissioners to complete, so far as practicable, the record of births, marriages and deaths, in the town and city of Boston, prior to A. D. 1849, and to receive and collect all documents obtainable therefor. All documents and records so collected shall become at once the property of the City of Boston, and be deposited in the office of, and be in the charge of, the City Registrar, or such other officer as the City Council may direct.

SECT. 3. The said commissioners shall have no power to enter into any contract or agreement in behalf of the city with any person, whereby the expenditure of money, or any other obligation, shall be incurred, unless expressly authorized so to do by the City Council: *provided*, however, that, unless otherwise ordered, they shall have the charge and control of the expenditure of all moneys expressly appropriated for copying any documents or records supplementary to the town or city records.

Passed July 6, 1875.

desire at this time to report upon certain preliminary investigations which they have made.

Evidently, any trustworthy information as to the names of the inhabitants of Boston during the period for which the registers are so defective, must be of the greatest value in any attempt to supplement those records. If we know the heads of families, we shall have a guide to the extent of the information yet to be obtained.

The earliest directory of the inhabitants of the town was published in 1789, and contained 1,474 names; the second in 1796, containing 3,531 names. No earlier list of names is known to be in print, except two given in Nathaniel Dearborn's "Boston Notions" (1848), and one appended to "John Dunton's Letters from New England," published by the Prince Society in 1867.

The various writers who have treated of our local history, Pemberton, Snow, Shaw, Dearborn, Drake and Shurtleff, have apparently been unable to make any attempt at supplying the names of the earlier inhabitants, or, indeed, of those living here at any date prior to 1789. The very defects which have led to the appointment of this commission have so disheartened our successive historians that they have all failed to write a town history of Boston. As is well known, a great proportion of the towns in New England possess full and satisfactory histories, not only of the acts of the communities, but of all families therein resident. Of Boston it may be said that much has been written about the town, and very little about the citizens.

It is with the greatest pleasure, then, that the commissioners announce that, very recently, documents have been recovered, which will enable those interested to gain a very satisfactory knowledge of the inhabitants of the town prior to A. D. 1700.

Although the records in charge of the city clerk, outside of the books of the town and of the selectmen, are very scanty, a number of very valuable papers have been found in the custody of the Board of Overseers of the Poor. That Board has recently had examined the papers which had accidentally come into its possession, and has kindly given the Record Commissioners every facility for examining and copying the same.

In this collection are portions of the tax lists of 1674 and 1676, and fortunately the missing parts are not parallel. There are at the State House tax lists for 1687 and 1688, and in the city clerk's office a list of inhabitants made in 1695.

Inasmuch as these lists will afford a very satisfactory

account of the heads of families in Boston for one generation, and as this information is at present not easily attainable by the public, it has seemed to the commissioners best to make this report, and to advise the publication of these lists. The field to be covered by their work is so large and the results will be so diversified, that it now seems best to report whenever any particular subdivision can be completed. In the present case it seems evident that the public good will best be served by furnishing a sufficient number of printed copies of these papers to supply all of our citizens who may desire them. Such documents are not easily read in the original, and the worn and tattered condition of these papers renders it highly undesirable that they should be handled often. A printed copy, carefully made, will meet the wants of all but special investigators, and will enable us to preserve the originals for posterity.

Should the present proposition be favorably received by the city government, the commissioners will feel encouraged to pursue other subdivisions of their work, in the belief that whatever directly contributes to a knowledge of the past history of Boston will be promptly made available by its inhabitants.

The commissioners, therefore, respectfully suggest that this report and the accompanying papers be printed for distribution.

## CITY OF BOSTON.

---

IN BOARD OF ALDERMEN, Sept. 25, 1876.

*Ordered*, That the Record Commissioners be authorized to print and distribute fifteen hundred copies of their report, with the accompanying papers, at an expense not exceeding six hundred and fifty dollars, to be charged to the appropriation for Printing.

Read twice and passed: sent down for concurrence. Sept. 28; came up: concurred. Approved by the Mayor, Sept. 29, 1876.

## APPENDIX A.

The following extracts from a report of the Joint Committee on the Public Library (City Document No. 46 of A. D. 1875) contain some special information in regard to the deficiencies in the city records, and are, therefore, worthy of reproduction. The committee reported in favor of establishing the Board of Record Commissioners, and, as this advice was accepted, the argumentative portions are omitted.

The report states as follows:—

“ It appears by the statement of N. A. Apollonio, the City Registrar, hereto annexed, that the records of births, deaths and marriages in the City of Boston are now kept systematically and have been since the year 1849. This, however, is but a brief part of the period since the settlement of the town, and your committee is obliged to report great and deplorable deficiencies in the earlier records.

“ To explain the extent of these deficiencies the following statements are copied from Shattuck’s Report on the Census of 1845, pp. 5, 130, showing the population of the town:—

A. D. 1680,	population was	4,500
1690,	“	7,000
1700,	“	6,700
1710,	“	9,000
1715-1724,	population averaged	11,000
1725-1734,	“	13,000
1735-1744,	“	17,000
1745-1754,	“	15,731
1755-1764,	“	15,631
1767-1774,	“	15.520
—————	“	—————
1811-1820,	“	38,274
1821-1830,	“	58,281
1831-1840,	“	78,603
1841-1845,	“	102,620

“ It may be assumed that the annual number of births is about 3 in every 100 inhabitants, and the deaths about the same. Let us examine the number of probable births in Boston during certain periods:—

“ 1st. From 1630 to 1700, the probable average population was 3,000, giving 90 births per annum, and in 70 years 6,300 births. Our record has about 1,850 births.

“ 2d. From 1700 to 1744, average population, 13,000, births, 390 per annum,\* or for 44 years, 17,160 births. Our record has 20,000 for the whole period, and is therefore reasonably full.

---

\* Shattuck’s table shows in ten years, 1735-1744, there were 5,779 baptisms.

" 3d. From 1744 to 1807, average population, 20,000; births, 600 per annum; for 63 years,\* 37,800 births. Our record has about 5,000 names, or not one seventh.

" 4th. From 1807 to 1849, average population, 70,000; births, 2,100 per annum; for 42 years, 88,200 births. Our meagre record is for 3,500 births.

" We see then that for about a century, viz., from 1744 to 1849, the births must have amounted to at least 125,000, and our records preserve the names of but 8,500, or less than seven per cent.

" As to deaths, the record is even worse. Out of at least 60,000 deaths which have occurred in Boston between 1630 and 1810, we have a record of some 4,700 only. In fact, these statistics are almost entirely wanting. Yet at the same time we are able to fix with considerable accuracy the number of deaths, since a weekly table was published for many years in the newspapers. A copy is given in Shattuck's Report, Appendix, p. 71, showing that from 1704 to 1774 there were 35,673 deaths.† Add 35 years (1775-1810), at 500 per annum, 17,500, and at least 10,000 for the 60 years previous to 1700, and the total is 60,000 deaths.

" As to the marriages, in any particular period, the number is rather less than half the number of births. It seems, therefore, that from 1630 to 1807 there were undoubtedly some 25,000 to 30,000 marriages. Our volumes contain about 20,000; and this part of the record is the best of all.

" We are forced to report, therefore, that in regard to the records of the city proper, between the years 1630 and 1849, not more than 7 per cent. of the births are preserved, about the same percentage of the deaths, and probably about two-thirds of the marriages. We also see that in regard to the births the deficiencies occur mainly in the century from 1744 to 1849, and that, owing to the increase in population, the greatest number of the unrecorded deaths occurred during the eighteenth century.

" To any one familiar with the records of the towns in Massachusetts, and aware of the care and completeness with which records have generally been kept, this report on our Boston records will be a disappointment. It is impossible now to learn when or where the deficiencies in these records were caused. The successive town clerks may have neglected their duties, or the records may have been destroyed, or a part at least may yet be recoverable.

" It is evidently the duty of the city, now that these deficiencies have been pointed out, to take immediate measures to fill the blanks by all the secondary evidence that can be obtained. Your committee, therefore, desire to point out the sources from which much important information can be at once procured.

" The church records of baptisms, burials and marriages are numerous and copious. Although their records relate mainly to church members, with their families, this class during the last two centuries embraced by far the greater part of our citizens. Prior

\* Also he shows in thirty years, 1745-1774, there were 12,284 baptisms.

† See tables later in this Appendix.

to 1700, at least seven churches were established here, and three or four times as many have been founded since.

"The custom of infant baptism enables us to obtain the births, therefore, of a great number of children, with an accuracy of date sufficient for all purposes. In fact, it is to be remembered that in England nothing but baptisms are recorded, and the system of town records of births, like the system of registering deeds, was practically employed in New England as a new plan.

"But inasmuch as the records of the thirty oldest churches of the city, are in private hands, and not generally accessible, and as,

moreover, they are always subject to destruction by fire or other accident, it is most desirable that carefully authenticated copies should be deposited with our other records, in the custody of the City Registrar.

" Again, as regards deaths, the tombstones of the three old graveyards in the city give much information, and that of the highest authenticity. Copies of these inscriptions have been printed, but a full and complete revision should be made, and the results placed in our city archives.

" As to marriages, the church records will supply much, and the newspapers of the day will add much more, as they will also to the record of deaths.

" Other sources of information, as deeds, family records, printed directories, etc., can also be depended upon as certain to be capable of giving valuable results.

" It seems, therefore, that not only are the deficiencies evident, but the means of supplying our wants are at hand, though in daily danger of destruction.

" The work calls for no large outlay, but it does require a continued and patient labor until all possible sources of information have been exhausted, and the results have been transferred to our Registry.

" Of the necessity of the work there can be no doubt. Every community recognizes the importance of preserving its records, and this city now properly expends a large sum annually for this object. It is of equal importance to collect the records of the past citizens of this city, and by prompt action a very satisfactory record can now be perfected.

" Your committee has examined chiefly the records of the city proper; but any plan of collecting missing records will equally embrace the archives of Charlestown, Dorchester, Roxbury, West Roxbury and Brighton, now included in our limits."

The following documents were appended to the report:—

CITY REGISTRAR'S OFFICE, March 17, 1875.

W. H. WHITMORE, Esq.:—

DEAR SIR.—In compliance with your request, I have the pleasure of furnishing you with a statement concerning the records belonging to this office, specifying the number of volumes they embrace, and the periods which they cover, together with their general condition.

As you are already aware, this office contains full and complete records of the births, marriages and deaths, from the year 1849 to the present time. The births during this period are comprised in twelve large volumes, containing, perhaps, an average of 15,000 names in each volume. For this same period there are fifteen volumes of marriage records, containing, probably, not far from 100,000 marriages. The records of deaths are contained in sixteen large volumes, embracing the period between 1810 and 1875. These records are full and complete. There are no records of deaths between 1800 and 1810. Whether none were kept during

that period, or whether they have been lost, it is impossible to determine.

In addition to the above there are, —

1. A volume of births, marriages and deaths, embracing the period between 1630 and 1666. This volume was transcribed on parchment, by order of the City Council, in 1856.
2. A volume containing over 20,000 births, during the period between 1630 and 1744. This volume has been transcribed within two years, and is believed to be full and complete.
3. A volume of 107 pages, containing births from 1744 to 1807. This record is not a complete one, and contains probably not more than 5,000 names.
4. A volume of about 70 pages, containing about 3,500 births, between 1800 and 1849. All the entries in this volume were made subsequent to 1849. The records during this period are exceedingly meagre, and make no pretensions to completeness.

In addition to the Marriage Records, before mentioned, are, —

1. A volume of 107 pages (lettered "A"), embracing the period from 1651 to 1662, and from 1689 to 1720, and containing about 4,300 marriages. Evidently not complete.
2. A volume of 141 pages (lettered "B"), containing about the same number of marriages as the preceding volume. The period embraced in this book is between 1720 and 1752.
3. A volume of 113 pages (lettered "C"), containing about 3,500 marriages, between 1750 and 1790.
4. A volume of 221 pages (lettered "D"), containing about 6,000 marriages. The period covered is between 1761 and 1807. There is no record of marriages between the years 1752 and 1761.
5. A volume of over 500 pages (lettered "E"), and contains about 8,000 marriages. The period embraced in this book is between 1807 and 1830. The record is believed to be reasonably complete.
6. A volume of about 450 pages (lettered "F"), containing in the neighborhood of 9,000 marriages, embraces the period between 1830 and 1840. This record is also a complete one.

A volume of about 320 pages (lettered "G"), containing about the same number of marriages as the preceding volume. It covers the period between 1840 and 1849.

In addition to the Records of Deaths, before mentioned, there are, —

1. A small volume of 39 pages, containing about 1,700 deaths. This record is a transcript of the deaths contained in the volume copied on parchment, before mentioned.
2. A volume of 79 pages, containing about 3,000 deaths, from 1700 to 1800. This record is manifestly very imperfect.

It is perhaps proper to say, that in addition to the above there is one volume containing marriages, in other towns of the State, of

parties residing in Boston. The marriages were prior to 1800, and were recorded in compliance with an Act of the Legislature in 1857 or 1858. The number of marriages recorded in this volume is about 1,000.

There are also about 60 volumes of Intentions of Marriage, reaching from 1707 to 1875. These are full and complete.

The Roxbury Records, to the period of annexation (1868), are comprised in nine volumes, viz. :—

Vol. 1. This book contains births, marriages and deaths, from 1630 to 1785. It is much worn and defaced, and some progress has been made towards having it transcribed.

Vol. 2 contains births from 1785 to 1844, and deaths from 1796 to 1844.

Vol. 3 covers the period between 1842 and 1849, and contains about 2,500 births, 600 marriages, and 1,500 deaths.

Vol. 4. Births from 1850 to 1864.

Vol. 5. " " 1864 to 1868.

Vol. 6. } Marriages from 1850 to 1868.

Vol. 7. } Deaths from 1850 to 1868.

Vol. 8. Out-of-town marriages.

The Records of Dorchester to the year of annexation (1870) are contained in 8 volumes, viz. :—

Vol. 1. 113 pp. Births, marriages and deaths, from 1631 to 1683.

Vol. 2. 206 pp. Births, marriages and deaths, from 1684 to 1744.

Vol. 3. 646 pp. Births, marriages and deaths, from 1745 to 1825.

Vol. 4. 300 pp. Births, marriages and deaths, from 1825 to 1844.

Vol. 5. 130 pp. Births, marriages and deaths, from 1844 to 1849.

Vol. 6. Births, from 1850 to 1869.

Vol. 7. Marriages, from 1850 to 1869.

Vol. 8. Deaths, " " "

I have omitted, in the above enumeration, the indices belonging to those records which are not alphabetically arranged. These indices are very numerous, and are methodically kept.

Hoping the foregoing statement will meet your wishes,

I am, very respectfully,

N. A. APOLLONIO.

Wm. H. WHITMORE, Esq. :—

DEAR SIR.—In compliance with your wishes, I would state, that Messrs. Sampson & Davenport have been employed since the crea-

tion of the Registration Law, in 1839, to procure the returns of births in Boston. For this purpose they use a corps of canvassers, who commence their work on the first day of January each year, and finish it on or before the first day of February ensuing. A transcript is made of these returns on the city records, and the originals forwarded to the Secretary of the Commonwealth, in accordance with the law.

In collecting the births, town clerks and registrars are subject to the instructions of the Secretary of State, by whom they are directed to enter the name of every child they find born during the year, irrespective of the real place of its birth. After the returns are made from all the towns, the Secretary causes the foreign births to be eliminated from each, and assigned to their proper places. These returns, with those of marriages and deaths, which are forwarded in like manner, furnish the materials for the yearly State Registration Reports, issued by the State Department."

"I desire further to say that, after twenty-one years' observation of this method of making up the records, and no little reflection on the subject, I am persuaded that there is little or no room for improvement in this direction."

N. A. APOLLONIO.

## APPENDIX B.

## INTRODUCTION.

In regard to the following list of tax-payers in the town of Boston, it is proper to say that it has been the intent of the editors to make a careful transcription of the names without emendation. The lists are in various handwritings and of very widely differing degrees of accuracy. Some of them are the revised lists prepared by practised clerks, and others are the hasty transcripts of less accomplished officials. Some of the writers used the modern forms of letters, and others retained the earlier style in vogue in the generation of the emigrants to New England. Every one who has had occasion to examine manuscripts is aware of the difficulty in discriminating between certain letters, and this difficulty is greatly increased by any lack of scholarship on the part of the writer. Again, a list of names is especially difficult of transcription, because there is no repetition of words or letters to assist the copyist in reading doubtful portions. There is no guide to the intent of the writer, since, when we feel sure of the name intended, we are not certain of the method of spelling followed by the writer. Again, the transcriber has not felt at liberty to seek other sources of information to learn the names of the inhabitants of Boston at the period, because there is no certainty that persons of names resembling those of well-known citizens did not also reside here for a short time.

In most cases the industry of genealogists will hereafter succeed in identifying the names here given; but as these lists are meant to be the sources of information, no attempt has been made to annotate the record. The sole object of the transcript is to give an exact copy of the words written on each paper, so far as they can be made out from a careful study thereof.

The original papers will all be carefully preserved in the city archives, and every one dissatisfied with the commissioners' version will have an opportunity to examine the documents anew.

Some clerical errors in these lists will strike every examiner. The forms of the vowels, *e*, *o*, *a*, *u*, are so easily confounded that it is difficult in many cases to decide which was meant; while on the other hand, it is clear that the old spelling and pronunciation often varied from the present form. Phonetic forms occur, as when Jeffries is placed under G in alphabetical lists, Eustis under U, and Uran under Y. Such a name as Macearty is sometimes found under C as Carty. In fact, no name must be considered as wanting from the list until it has been sought under all possible variations of spelling.

Some apology may seem necessary for printing so many of these lists containing so many repetitions. In excuse it may be pleaded that all these facts are new to the public, and that these lists, it is feared, are all that remain of the great mass of such material once on record. The great deficiencies in the town records render it desirable that we should give all the information in our power as

to the length of time that any and every person remained in Boston. Often the nearest approach we can make to the date of the death of one of our early citizens will be the fact that he disappeared from the tax-list.

In order to save expense, the names only have been copied on most of the lists, the exceptions being the first town-rates of 1674 and 1676, and the very copious tax-lists of 1687 and 1688. In the latter especially, the details of the property of our citizens are given with so great thoroughness as to afford valuable information to the historian.

In respect to the system on which the lists were made, it is evident that the divisions to which the constables were apportioned were those of the military companies of the town.

Prior to 1670, the number of constables (besides one each for Rumney Marsh or Chelsea, and Muddy River or Brookline) was four. In town-meeting, March 14, 1669-70, the number was raised to six for Boston, and again, March 10th, 1677-78, to eight.

By the Colony records, it appears that October 7, 1674, the Court ordered the militia to be divided into companies of one hundred each, and in Boston eight companies were accordingly made. The captains were Major Thomas Clarke, Thomas Savage, Thomas Clark, 2d, John Richards, James Olliver, Daniel Henchman, William Hudson, John Hull.

We are not able to fix with certainty the boundaries of these early local subdivisions, though the well-known citizens in each list will afford a clue for an approximation.

In 1713, a division into eight wards was made, of which SHURTLEFF says (*Description of Boston*, p. 129) that no record remains. Fortunately, a copy has been discovered, and will be given herein, although two years later another division was made, quite different in its lines. There is a certain probability that the first plan followed the lines then in use for the military companies, and that any changes would appear in the second plan.

As Shurtleff shows, in August, 1713, the Selectmen made a division into wards, which was not put on the book, but "attested by the Town Clerk and put on file."

Among the papers discovered at the office of the Overseers of the Poor is an attested copy of this document, either the original or one made at the time for the use of that Board. It is as follows:—

JOSEPH PROUT,  
*Town Clerk.*

[DIVISION OF WARDS, 1715.]

For some reason the foregoing arrangement did not prove satisfactory, and a change was made.

In the Selectmen's book under date of February 1, 1715, is the following entry:—

“Voted, That there be a division made of this Town into eight distinct Wards, in order to their inspecting each respective Ward.”

“Voted, That it be left w<sup>th</sup> the Selectmen to make such division suitable to that Occasion.”

On the 8th of February, 1715, the following plan was read and an agreement voted:—

This division is entered on the Selectmen's book, though our transcript is taken from a contemporaneous copy at the office of the Overseers of the Poor. It has been printed in Shurtleff's book, pp. 130–1.

Shurtleff indeed says that Burgiss's map of 1728, “substantially shows these boundaries by dotted lines.” A careful inspection fails to confirm this; whatever Burgiss's dots signify, they do *no* follow the lines of 1715. They resemble rather the lines of 1713 and *may* show the still older divisions of the preceding half-century.

Pemberton says (Mass. Hist. Soc. Coll. 1st s. iii., 267) that in 1735 the town was divided into twelve wards, which number long continued.

In Shaw's Description of Boston, pp. 111–115, is an account of the boundaries as settled in 1805.

[WARDS, 1715.]

*North ward, No. 1.*—Bounded North by Charles River & South by the North side of Fleet Street & Bennet Street.

*Fleet ward, No. 2.*—Bounded Northerly by the South side of Fleet Street & Bennet Street, and southerly by Wood & Beer lanes.

*Bridge ward, No. 3.* — Bounded Northerly by Wood & Beer Lanes, and Southerly by the Mill Creek.

*Creek ward, No. 4.* — Bounded Northerly by the Mill Creek & Southerly by the North side of Wings Lane from the Upper End thereof, the North side of Hannover street to the Orange Tree, & the North East side of Cambridge street.

*Kings ward, No. 5.* — Bounded Northerly by the South side of Wings Lane from the upper end thereof, the South side of Hannover street, & the South-westerly side of Cambridge; & Southerly p. the North side of Kings and Queens streets to the Southard of the School House, Mr. Cottons House the southermost House.

*Change ward, No. 6.* — Bounded Northerly by the South sides of King & Queen Streets, & Southerly by the North side of Milk street, thence the West side of Marlborough Street as far as Rawsons Lane, the North side thereof, & the North side the Common.

*Pond ward, No. 7.* — Bounded Northerly by the South side of Milk Street, thence the East side of Marlborough Street as far as Rawsons Lane the South side thereof, southerly by the North side of West & Pond Streets, blind lane & thence the North side of Summer Street.

*South ward, No. 8.* — Bounded Northerly by the South side of Summer Street as far as Church Green, the South side of Blind Lane, of Pond & West Street; and Southerly by the Towns Southern Bounds.

Feb'y 8th, 1715. Voted by y<sup>e</sup> Justices, Selmen and Overseers of the Poor, an Agreem<sup>t</sup> to the aboves<sup>d</sup> Projection.

OFFICE OF THE OVERSEERS OF THE POOR, CHARITY BUILDING, }  
COR. OF HAWKINS AND CHARDON STS. }

BOSTON, Nov. 2, 1876.

At a meeting of the Board of Overseers of the Poor, held November 1, 1876, it was

Voted, That the ancient tax-lists now in the possession of the Record Commissioners, for the purpose of being printed, and embraced in the list of papers placed by this Board in their hands for that purpose, be transferred to the keeping of the City Clerk for examination by any one interested.

A true copy.

## TAX LIST OF 1674.

The following documents supply a large portion of the names of the tax-payers of Boston in 1674. The papers, which have been preserved, consist of four lists out of six corresponding to the divisions for the town, and also of the lists for Muddy River (Brookline) and Rumney Marsh (Chelsea). These are really the earliest lists extant, as although there is List No. 1 for a tax in 1673, the names are identical with those on the corresponding List No. 1 for 1674. Fortunately, also, there is, with each of the four Tax Lists, a preliminary list made by the constable, which gives the names of a number of persons not placed on the Tax List, being sojourners, servants, or children.

The result of these lists may be summed up as follows:—

List No. 1,	239	names on Tax List,	106	names added from the Preliminary List.	
“ 2,	126	“ “ “ “	44	“ “ “ “	“ “ “ “
“ 4,	132	“ “ “ “	84	“ “ “ “	“ “ “ “
“ 5,	120	“ “ “ “	44	“ “ “ “	“ “ “ “
Mud'y Riv'r 44	“ “ “ “	20	“ “ “ “	“ “ “ “	“ “ “ “
Rum'y M'sh 30	“ “ “ “				
				691	298
				298	
				989	

About 989 names are thus recovered; a few, however, are entered on more than one list. It will be noted that in 1676 there were in all only 853 heads taxed; and this list gives us 691 names, besides nearly 300 more of persons who were undoubtedly living in the town. Hence we can estimate that we obtain five-sixths of the tax-payers in 1674.

Special comments will be made on each portion of the following list in the proper places, explaining the relation of the papers to each other.

The following sheet is evidently a summary of the whole:—

\*This entry was an error made at the time, as the totals show these figures of No. 1 were not included. No. 1 was Greenwood's list and is added below the others, and it consists of seven pages. Clearly the clerk made a mistake, and, finding it out, omitted these figures (£49.8 and £16.19), adding instead the true figures of Greenwood's list.

**List No. 1.**

The numbers added in parentheses refer to the Preliminary List, which is also preserved, and which has been carefully compared with this for variations.

## PRELIMINARY LIST FOR NO. 1 (1674) ENDORSED AS FOLLOWS:—

## “1674. CONSTABLE GREENWOOD. LIST OF NAMES.”

This list, like the others hereafter mentioned, was probably prepared before the Tax List, and was a guide in making up the taxes. We shall find in the similar lists prepared by the other constables various memoranda in regard to the persons named, as that they were lodgers, servants, children, etc. But this list of Constable Greenwood's has nothing but the names, and is of service mainly as supplying the names of certain inhabitants who were not tax-payers.

The following list contains all the names on the Preliminary List which are not on the Tax List of 1674 in Greenwood's division, and printed in the preceding pages. There are 319 in all, 213 being also on the Tax List. The Tax List has also 26 names not on this. The numbers refer to the place on the original paper, which has seven columns of names:—

2 Nathaniel Collins	99 Jno. Steuens
11 Ould Good <sup>m</sup> Williams fery <sup>m</sup> .	100 Tho. Field
14 Robeir Pegg	102 George Keay.

 & 2 o<sup>rs</sup> ditto  
 Jno. Goffe.

In the foregoing list of 103 entries there are, also, 41 names of lodgers, servants, etc., or 144 names in all.

On the Tax List there are 126 names, of which 100 are on the Preliminary List (including the name of John King as twice recorded, though possibly meant for a son of the name also); this leaves 44 names on this list, not taxed in this district at least. Of these 14 are recorded as householders, and 30 as lodgers or servants.

The following changes of spelling are noticeable:—

5. James Roberts in one list, Robertson in the other.
37. Peter Gee     "     "     "     Gay     "     "     "
48. John King *seems* to be a duplicate of No. 14.
69. Joseph Townsend or Townsinge.
71. John Rickes or Rex.
74. Thomas Rickes or Rex.
75. Gawdy or Gode James.
79. John Jebson or Gepson.
82. Thomas Standardy or Stanbeary.
83. George Halliotte or Hallard.
92. Elias Stiff or Stif.
97. John and Jacob Ferniside or Farensey.
98. William Whytaway or Whartway.

\* See No. 7 in preceding list.

## TAX LIST, DIVISION NO. 4.—1674.

It will be seen that this list ends with the letter T, so that there must have been another sheet.

Again the pages add:—

	Town.	Country.
No. 1, £23 08		£19 03
2, 11 17		9 11
3, 13 13		8 01
4, 21 00		11 17
	69 18	48 12
Requiring	11 03	4 13

To make up the sum of £81 01 53 05 which is charged to Bingley's list in the general statement prefixed.

We recover from the Supplementary List eleven names in U and W; and, as they are well-known and wealthy citizens, their taxes would nearly make up the sum required. These names are:—

Hezekiah Usher, Sr.,	Joseph Webb,
Hezekiah Usher, jr.,	John Willkins,
John Usher,	Mildred Wills,
John Waite,	Experience Willis,
Thomas Wattkins,	John Wissell, jr.
William Waycott,	

As in the previous examples, reference is made to the Preliminary List for this division printed immediately after it. The numbers in parenthesis, annexed to some names in this list, denote their positions in the other list.

## PRELIMINARY LIST FOR DIVISION NO. 4.

The Preliminary List mentioned is subcribed as follows :—

“ These are a List of the names of psons ratable. p. me  
THO : BINGLEY, *Constable.*”

It is in four columns, on two pages ; the columns contain respectively 52, 52, 49 and 35 names. I have been thus precise, as I have affixed to the names, found therein, and on the Tax List, the number (in parenthesis) which they hold on this Supplementary List.

There are in all 188 names, of which 104 names are on the Tax List ; the 84 other names are mostly called servants. It is to be remembered that by servants are meant apprentices and workmen ; and in most instances the persons so described will be recognized as members of well-known families. The Tax List has 132 names, 28 being new.

I add the names on the Supplementary List, and *not* on the Tax List ; also are given some names, marked with a star, which *are* on the Tax List, but concerning which some additional information is given by this Preliminary List. The notes in parenthesis are mine ; everything else is copied from the original. The 11 names in small capitals are those beginning with U or W, and which *may* have been on the missing part of the Tax List.

The whole number of names on the Tax List is 132 (omitting Henry Ongram, who appears also as Henry Ingram), 104 being on the Preliminary List, and 28 being new names.

We thus get the names 132 and 84 = 216 persons in Bingley's division.

Names of the Preliminary List, *not* on the Tax List. The numbers refer to the original paper.

## TAX LIST, DIVISION NO. 5.—1674.

This list has also a preliminary part, which is also printed, and the names found on both are marked with a star.

It appears that there are one hundred and twenty names on the Tax List, eighty-six of which are on the Preliminary List. The latter also has the names of twenty-seven servants, nine sojourners and eight sons, not on the Tax List; making one hundred and sixty-four names recovered in this division.

TAX LIST.—1676.

The documents next in date are four sheets out of six, comprising the valuation of Boston in 1676. The summary on sheet six shows that sheets one and five are missing. The individuals on the lists number

on p. 2, 74  
 3, 66  
 4, 66  
 6, 19

— 225 —

and the other two sheets would give about one hundred and fifty names more, or three hundred and seventy-five heads of families. The tax calls for eight hundred and fifty-three heads, a discrepancy hard to explain if the plan of enumeration be the same as that in use in 1687, in which few persons were taxed for more than one "head" in each family. It is therefore probable that in the taxation of "heads" in 1676, the list for which is lacking, the minors, servants, etc., were assessed to the real head of the family.

It will be observed that the arrangement of these sheets is not by the local divisions; at least we do not find all of division one, two, or three, in consecutive order.

**TAX LIST FOR 1681. (Imperfect.)**

The next document is a tax list for 1681, of which we find the greater part, viz., divisions or precincts Nos. 2, 3, 4, 5, 7 and 8, and Rumney Marsh. The missing parts are for precincts Nos. 1 and 6, and Muddy River.

It has not seemed necessary to print the amount of the tax paid by each person, as the original can always be consulted to afford this information about the individuals not named in the preceding lists.

## ALMISHOUSE RATE OF 1685.

The following extract, from "Snow's History of Boston" (p. 324), will explain the cause of this tax:—

"The old Alms House, Work House and Bridewell together with the Granary, were situated on Park street. The *Granary* was a long wooden building at the corner of Common st, capable of containing 12,000 bushels of grain, which it was customary for a committee, annually appointed by the town, to have stored in it for the accommodation of the poor and others who wished to purchase in small quantities, at an advance on the wholesale price not exceeding ten per cent. The *Alms House* was a two story brick building, in the form of an L., with a gable roof, appropriated to the aged and infirm poor. The *Work House* was a large brick building, 120 feet long, two stories high with a gable roof, for the reception of vagrant, idle and dissolute persons. *Bridewell* was contiguous to the work house and was a sort of prison for the disorderly: a part of the house was assigned to the insane."

"The first proposal for an Alms house on the Town records occurs in Nov. 1660. In Feb. 1685, a person is admitted into the Alms house. Dec. 16, 1682, the Alms house being burnt a new one is proposed: it was building June 2, 1686. The Work house was built in 1738."

DRAKE adds (p. 597) that the North End market-house fell into disuse, "was eventually taken down, and the timber used in the construction of a Work-house."

On Burgess's Map only three houses (those on the corner where the Tremont House stands) are depicted on the whole square enclosed by Beacon, Park and Tremont streets. Yet on Bonner's Map of 1722, as reproduced by George G. Smith, we find several more houses, together with the Bridewell on Park street, and the Almshouse on the corner of that street and Beacon street.

May 25, 1795, the town voted to sell all this land, and March 23, 1801, it was sold at auction by the agents of the town. The corner lot where the church now stands extended 118 feet up Park street; then came three lots, each 78 feet long, on that street, and bounded by the Granary burying-ground. The next lot was 72 feet wide, and extended back 156 feet, overlapping lot No. 3, and reaching to the grave-yard. Lot No. 5 was the corner lot, 66 feet on Park street and 156 feet on Beacon street. Lot No. 6 was 56 feet on Beacon street, running through to the grave-yard, and bounding east on the lot sold to William Phillips, and since covered by the Athenaeum building.

On lot No. 6 the Misses Payne and their brother built a large double house with a drive-way through the centre. Lots 5 and 4 were bought by Thomas Amory, and here he built the large double house which has had as tenants Samuel Dexter, Christopher Gore and George Ticknor. On the Park street lots have lived Judge Artemas Ward, Abbott Lawrence, Gov. Gardner, the Quineys, Warrens, and other distinguished citizens of Boston.

## BOSTON, VALUATION OF 1688.

At the State House also will be found in the Usurpation Papers, Vol. 129, pp. 139, *et seq.*, a list of tax-payers and their property, in Boston, in 1688.

Although a careful copy has been made of these lists, which will be placed at the City Clerk's office with other documents, it has been found unadvisable to undertake to print all the details of the taxable estates. In the following pages, therefore, only the names of the tax-payers are given, with the statement of the number of heads in each family.

## TAX LIST FOR ONE PRECINCT. 1689.

The following list of names is probably one of the lists preliminary to some tax. It was clearly prepared by Samuel Greenwood, no doubt the constable of that name. Greenwood held that office in 1674, and again in 1689; this list is probably of the latter date.

## 1691. (LIST OF ABATEMENTS.)

The following scrap seems worthy of preservation:—

"March 23<sup>d</sup> 1690-1. Poore in the 10 rates,—not able to pay—in the quarter of William Hough, constable of Boston."

	£	s.	d.
Josiah Baker, sick & great fam <sup>y</sup>	14		
Job Chamberlain, the same	14		
Joseph Fuller	10		
Gabriel Fishlock	12		
George Heskett, held at eastw <sup>d</sup>	1	10	
John Jarvice, at sea	1	10	
Thomas Palmer, very poor	5		
Edward Page, dead	5		
Nathaniel Robinson, dead in West Indies	1	10	
William Sterling, taken in France	10		
Jeremiah Townsend, dead of Canada diseas	10		
<hr/>			
George Worthylake, dead	8	10	
	1		
<hr/>			
	9	10	

\* Of course in all these cases the name is that of the owner. The addition means that he owned a negro or mulatto, or had a servant.

## TAX LIST OF 1691. LACKS RUMNEY MARSH ONLY.

Of the country rate for 1691 we have a nearly perfect list, the only missing part being that for Rumney Marsh. For reasons before stated we omit the amounts and give all the names.

## LIST OF INHABITANTS. 1695.

In the City Clerk's office there is a book containing a list of inhabitants of the town in 1695, evidently made at that date.

The substance of it has been printed in "Boston Notions," but mixed with other names. We therefore now print it in its proper form, the names being arranged alphabetically, and under each letter, also, by precincts or wards.

## INDEX OF NAMES.

In preparing the following Index, I have endeavored to assist the reader in finding names, but without warranting the correctness of my identifications. That is, I have placed under one head names which *seemed* to be probably the same, although varied in spelling. But the reader is again warned that the spelling of so many names is varied on these lists as to render it impossible to place them under definite and certain headings. Thus, we have Jeffries under Gefferies, Enstis under Ustice, Chaddock and Shaddock, Ersey, probably for Hersey, and innumerable instances of changes of vowels. Hence the searcher for any name must look for it under all possible variations, and must follow out all references to names resembling the one sought: *a name may be under more than one heading.* He must search all names under the initial letter of the name, and must also search under any other initial which could be interchanged therewith.

It is hoped that every name on the foregoing lists has been safely transferred to the following columns.
